How Do Your Employees Benefit From Joining The Tulsa Jaycees?

It is difficult to mention all the ways people will benefit from belonging to our group. Some of the biggest advantages to your employees would include these skills that are developed with a person's active participation: time management, teamwork, delegation, public speaking, writing, organization, project management, networking, and goal setting to name a few. Once a member develops these skills through our unique way of training, your employees will be a greater asset for your company.

Members have the opportunity to go to a variety of educational individual development activities. Several times a year we will have guest speakers to come to talk about a variety of topics. These could include but are not limited too, mortgage refinancing, investment strategies, insurance risks, political issues, CPR, web site development, and others. It all depends on what our members want to know. Once, a member you will never be charged for any of these educational opportunities.

Here is a list of other benefits our members are entitled to from the National Jaycees organization:

- **Special deals with car purchases through Volvo**
- **Gourmet foods - 40% discount**
