

Here's Why We Need You as a Corporate Sponsor

Our organization has a creed. The last line of the creed states that service to humanity is the best work of life. Even with our strong desire to great things for others, we know that to do many of these things requires funds beyond what is normally available. The Tulsa Jaycees is asking your company to consider helping us with the services we provide for our community.

We know that times are tough right now for many individuals and families. As a Not for Profit organization, we have really begun to understand the full impact of the situation. We have to support everything we do in our community through the money we receive from our fundraisers. Over the last few years people have not wanted to contribute as much to our organization. And with the economy in the present situation, people need more help right now. It is difficult for us to do so much for our city with less money coming in.

If you haven't looked by now, please glance at our community projects page to find out more information about the types of activities we will do with your donation. The donation you provide will be used to make our existing projects better, and or create new projects that will benefit those in need in the Tulsa community.

Suggested gift amounts:

\$500.00

\$1,000.00

\$1,500.00

Your Business can donate any amount desired to our organization. If you choose to give us your support annually, we will put your company logo in our monthly newsletters for the \$500.00 donation. For a donation of \$1,000.00 or more we will put your company logo in our newsletters and on our website. For donations of \$1,500.00 or more we will also use your company logo on our promotional advertisement for our larger projects.

If you choose you can also be a corporate sponsor by providing products or services we are in need of to do our projects. We would also recognize your support in the ways listed above. For \$500.00 in products or services we would put your logo on our newsletter – and the more you can help us the more we will do for you.

Please contact us personally if your company would be interested in any aspect of our sponsorship program. We would be very happy to talk to anyone interested in working with us.
